UNITED STATES INTELLIGENCE BOARD

MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT : Review of Requirement for Overhead Reconnaissance  
of the [REDACTED]

25X6

REFERENCE : USIB-D-41.14/16, 15 August 1963,  
Limited Distribution

USIB, at its 5 September meeting, reviewed the need for coverage by  
overhead reconnaissance of [REDACTED] and, during discussion  
thereof, took the following actions:

25X6

a. Noted an oral report by the Chairman that [REDACTED] has expressed  
a valid objection to the use of [REDACTED] as envisioned in  
the reference paper because of the risk of compromising the security of the  
U-2 operations until the construction crews had completed their work and  
been removed from the base. Mr. McCone said this raised the question  
whether the urgency of the requirement for U-2 coverage of the [REDACTED]  
[REDACTED] which had been levied by the Defense Department, justified approaching  
[REDACTED] He noted that CIA felt that the risks of a further  
delay in such coverage until mid-October could be accepted.

b. Noted, as expressed by General Carroll, the importance and  
urgency which the Department of Defense attached to obtaining overhead  
reconnaissance coverage of [REDACTED] especially during the  
approaching period when weather would be favorable for ChiCom military action  
in the area.
